IEF-Werner donates to the Bregtal School in Furtwangen

Instead of presents for customers

This year, IEF-Werner GmbH is foregoing Christmas presents for its customers and instead donating 3,000 euros to a special education and counselling centre in Furtwangen. The donation was handed over on December 14.

Furtwangen, 14.12.2020 – "We have already told our business partners and customers that this year, instead of giving out Christmas presents, we would like to help a charitable institution with a donation," the two managing directors Stefan Deck and Manfred Meyer agree. IEF-Werner GmbH is a supplier of automation solutions and system components in Furtwangen that feels very connected to the region. That is why the company decided to support the Bregtal School - Reha-Südwest in Furtwangen. The special educational and counselling centre has set itself the goal of recognising, promoting and also demanding the needs and concerns of children, young people and adults with disabilities. The affiliated boarding school offers them a home and supports them in shaping their lives in a self-determined way.
